# COVID-19 hackathon fund

Supporting hackathon projects solving for challenges related to COVID-19

—

**Program Overview:**

Google Cloud is offering up to **$5,000 in cloud credits and guidance from Google developers** to select hackathon projects focused on building solutions for challenges related to COVID-19.

**Who can apply?**

Anyone who was invited to apply from select hackathons. Applications due by **December 1, 2020.**

**How will projects be evaluated?**

## Impact

**Define and measure your success and scope:**

Projects must have a defined scope within 90 days, expected launch timeline, and trackable success metrics within the proposal. In addition, projects must include a clear outline of how Google Cloud services will be used.

## Focus Area

**Projects such as those under the following areas will be prioritized:**

**Healthcare & Life Sciences** - performing medical care or research

**Economic Impact** - supporting commerce, employment, and incomes

**Social Engagement** - building meaningful human connections

**Education & Distance Learning** - helping educators, students, and academic institutions

*Not an exhaustive list -- other projects may be considered*

## Region

**Applicants must be from an affiliated higher education organization or institution residing in one of the following countries:**

Australia, Austria, Belgium, Bulgaria, Canada, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, India, Indonesia, Israel, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, New Zealand, Norway, Poland, Portugal, Romania, Slovakia, Spain, Sweden, Switzerland, United Kingdom, United States

*We hope to expand to other geographies.*
